

TF91-TRS

Battery powered pedestrian sweeper. Powerful dust control. For cleaning net floor surfaces of up to 3,000m².

TF100-TRS

Battery powered pedestrian sweeper. Powerful dust control. For cleaning net floor surfaces of up to 5,000m².

TF91-TRS

The TF91-TRS keeps sweeping the simple job it really should be whilst delivering cleaning results rarely achieved by a machine in this class.

- Tough polyethylene construction means the TF91-TRS is light and quiet for indoor carpet sweeping applications and robust enough for outdoor sweeping.
- Characteristically simple operator controls minimises training requirements and engenders operator confidence.
- Simple access to main brooms and side brushes make inspection and servicing straightforward.
- Horizontally housed filter means dust can fall unimpeded for maximum regeneration and dust control when cleaning.
- Fuse breakers protect motors from overload and can be reset in seconds for reduced down time.
- The one-piece cover hinges back to give fast and easy access to components and the filter can be removed with no tools.

Whether it be a straight forward user face, whisper quiet operation or superb dust control that you need, the TF91-TRS has it all and more!

TF100-TRS

For truly industrial users and serious sweeping applications, the TF100-TRS stands taller and shouts louder than any other walk behind sweeper.

- The 3m² filter and 600m³/hr airflow volume deliver outstanding dust control in the harshest of environments for perfect sweeping results each time, every time.
- The TF100-TRS uses around 75% of the 70ltr waste container, making it directly comparable with a forward throw sweeper with a 130ltr hopper.
- The laser cut metal chassis, chain driven sweeping mechanism and geared side brush drive all form the tougher construction for industrial environments.
- Fast access to main brooms and side brushes make inspection and servicing simple.
- Clear and logical operator controls minimise training requirements and enhance operator confidence.
- Forwards and reverse drive for easier operation and manoeuvrability even on inclines or rough terrain.

“ Topfloor TRS sweepers are for truly industrial users and serious sweeping applications. Simple and powerful: job done. ”

TECHNICAL INFORMATION	TF91-TRS	TF100-TRS
Power Supply	Battery / Petrol	Battery / Petrol
Theoretical Productivity (m ² /hr)	3,600	4,000
Main Broom Width (mm)	500	600
Total Sweep Width (mm)	900	1,000
Hopper Capacity (ltr)	60	70
Filter Area (m ²)	2.5	3
Airflow Volume (m ³ /hr)	250	600
Dimensions – L x W x H (mm)	1,150 x 790 x 600	1,190 x 790 x 820
Weight – incl Battery (kg)	105 / 95	125 / 105
