Geniune Nilfisk Quality, Reliability & Performance

One touch magic just touch and go.
GreenConserves water.
The low-flow water, no detergent-mode is ideal for routine cleaning.
Flexible One touch of a button increases performance, adding just enough detergent for dirtier floors. Choose between 5 different levels.
One-minute boost Brush pressure:
Temporary 60 second power cleaning boost functionality for extra dirty patches.

Easy-fill tank system utilizes an integrated hose. Allowing the machine to be filled from the nearest available water tap. (optional)

The optional Ecoflex chemical kit accurately meters the detergent and saves costs

Reliability is also our mantra when it comes to service

This Nilfisk range of walk-behind scrubber/dryers offers less so that it can give more. Less noise for example, so that more daytime cleaning can be performed – even in noise sensitive areas.

Not to say about Ecoflex, the system, available in all the battery driven versions.

These, and the many other new and improved features, provide more productivity, more running time, more reliability, more ergonomoy, more options and more cost effectiveness. Most importantly, it all adds up to a lower overall cost of cleaning.

Nilfisk technical leadership once again makes it possible for cleaning professionals to enjoy all the benefits of truly well designed equipment, while being able to increase productivity and lower costs. Nilfisk scrubber/dryers make effective floor cleaning a fast, quiet and inexpensive task.

- Ecoflex system: complete consumption control without any compromise with cleaning performance
- Exceptionally low noise level permits cleaning anywhere at any time, even in sensitive areas
- Interchangeable brush decks allow choice of 3 disc sizes (45, 53 & 61 cm) or 51 cm cylindrical
- Adjustable scrubbing pressure allows optimal cleaning in all conditions
- One-touch dashboard operation, no-tools squeegee blades-changing, easy filling points and other ergonomic advantages mean easier and more efficient operator control
- Floating brush deck, large wheel traction, waterproof electrical control box and quality design throughout add up to extended machine life and reliability

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different require - ments and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

Technical specifications

Description	Unit	BA 611						
Voltage	V	24						
Rated power	W	1230						
Sound pressure level at 1.5m	dB(A)	65.8						
Productivity rate theoretical/ actual	m ² /h	2860/1720						
Scrubbing width	mm	610						
Max speed	km/h	5.6						
Solution/recovery tank	litre	55/55						
Brush/pad diameter	mm	2x305						
Brush pressure	kg	21/28						
Brush speed	rpm	230						
Squeegee width	mm	810						
Length x width x height	cm	131x65x109						
Weight	kg	110						
Operating weight	kg	255
