

TOPFLOOR

SIMPLE, STRONG, SAFE

EX55-OCS

Superior Cleaning Results In Less Time With Less Effort

A unique method for hard floor cleaning, carpet cleaning, stone polishing, wood floor restoration and floor stripping.

www.crescentindustrial.co.uk

Unrivalled Power Using Oscillating Cleaning Methods

Benefits:

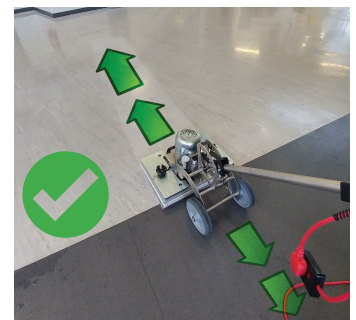

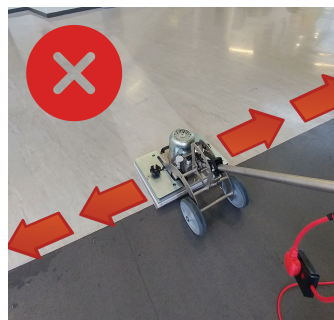

1. Stainless steel build for guaranteed durability and virtually zero maintenance in industrial applications
2. Fastest cleaning results: dual action cleaning speeds of 10 times that of standard floor cleaners means the Topfloor EX55-OCS delivers the fastest cleaning results.
3. With an increased pressure weight variation of 37-120kg and fast oscillating movement on the scrub head makes the EX55-OCS perfect for restoring high shine to stone floors, cleaning tough ingrained dirt and restoring them in less time, with less effort.
4. Large non-marking wheels make for easy transportation and step climbing.
5. Reduce repetitive strain injury (RSI) with no swing cleaning, thanks to the oscillating cleaning head which floats across the floor surface.
6. Adjustable handle height makes for comfortable cleaning for any operator.

‘What is the Topfloor Oscillating Cleaning Method?’

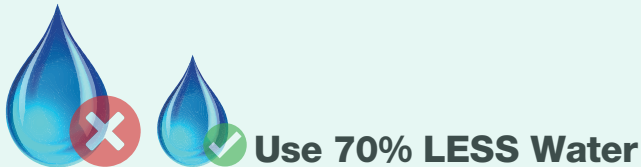

- **The Topfloor oscillating** floor cleaning method combines small random movements of 2800 x 7mm Per/Minute.

Cleaning Direction is Forward / Reverse

Multipurpose Oscillating Cleaning Method for Hard Floors, Carpets & Stone Restoration

Use 70% LESS Water

Hard Floor Cleaning

WATER ONLY
