TOPFLOOR

TOPSWEEP TF111-TRS

TRS TECHNOLOGY

Double Sweeping Power with TRS!

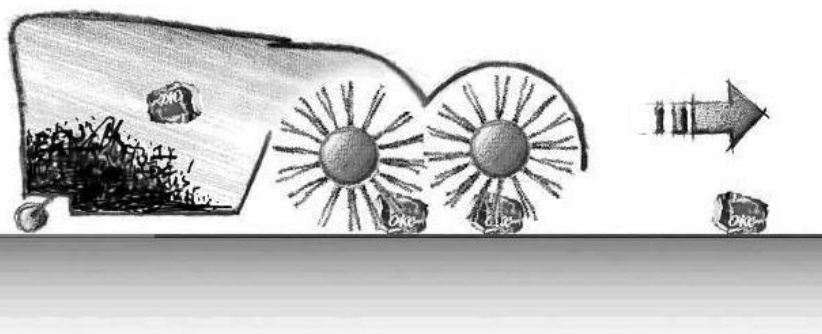

Reliable down- to- earth efficiency

The vast majority of ride-on professional sweeping jobs demand a machine that is compact, manoeuvrable and reliable. The Topfloor TF111R-TRS represents simplicity and robustness in its most sophisticated form.

- Superb manoeuvrability and tight turning radius permits cleaning in narrow, congested areas.

- Solid metal traction motor support and broom motor circuit breakers provide greater reliability and less downtime
- Excellent filtering capacity and large hopper means that more debris can be collected without creating dust
- Extra long running time made possible by optimal battery layout.

TRS – new sweeping technology!

TRS starts cleaning where other sweepers stop! The new twin broom technique enables collection of large, bulky debris as well as finer dust particles for the best cleaning result. Additionally, TRS makes far more efficient usage of the waste container by filling from the bottom up, meaning less time emptying and more time sweeping!

Technical specification

Description	Unit	TF111R-TRS
Motor power source		24v Battery
Productivity rate theoretical / actual	m ² /hr	6660/4662
Working width with main broom	mm	700
Working width with right side brush	mm	905
Working width with 2 side brushes	mm	1110
Turning circle	cm	120
Max. Speed	km/h	6
Hopper volume	l	95
Main filter area	m ²	2<4
Length x width x height	cm	145x90x130
Weight	kg	338.8

Please note specification may change without prior notice. Typical performance indicators are shown and may vary. Check specification and accessories before order.
